2nd Annual
2025

At The JacobStrong615 Foundation, our mission is to empower pre-teens and teens to navigate the challenges of mental health with resilience, education, and open dialogue. We are dedicated to dismantling the stigma surrounding mental health by fostering awareness and creating a supportive community at the local level.

Our commitment is to provide resources that empower teens to openly discuss mental health, ensuring they feel heard and understood. Through innovative programs, we aim to connect with teens, fostering conversations that equip them with essential tools to communicate effectively with their peers, parents, and teachers. As well as empowering them to embrace self-love and nurture their confidence through specially designed programs intended to foster a foundation for lifelong well-being and positive personal development.

Furthermore, we extend our reach to parents, educating them on recognizing potential signs of distress and providing guidance on accessing vital resources. By promoting a culture of understanding and empathy, we strive to create an environment where teens feel Empowered to seek help for themselves and their peers without fear or judgment.

Together, we envision a future where mental health is a topic of open conversation, destigmatized and embraced by teens, parents, and the community. The JacobStrong615 Foundation is dedicated to building bridges of support, fostering resilience, and ensuring that no teen faces the challenges of mental health alone.
